Subject: Program Review Assignments (complete, practically)

Good morning Tina,

All of the ORG assignments have been made practically (still missing Dave Drury, Dawn Chun, and John Lau…though I think Dave and John are covered pretty well by Sandie Noel and Mary Carter and others).

In all in the database I see that there are currently 181 line items that have been entered (table with org codes is shown below). Comparing this to the number of GEN2 items from FY09 (2008-09) which had 2675 total line items entered and GEN6 of FY10 which had 2843 line items we get the following completion percentages:
181/2675 * 100 = 6.77%
181/2843 * 100 = 6.37%

It looks like the hands-on training was well accepted and got a number of people started so I'm going to try and organize some more with Larry next week though he said that his lab was going to be occupied all of next week (I was thinking that side lab in the Reading/Writing Lab might be useful instead if it isn't being used, but I've never reserved it before so I don't know who to talk to about that just yet, but I'll ask Jeff since he's had to use it before).

I hope some of these numbers are helpful!

orgCode	completed
331	2
371	3
443	3
501	1
506	6
901	3
905	28
906	27
909	1
931	49
933	23
934	13
937	22
