

Trigonometry/Precalculus Review Course Content

NOTE: In addition to trigonometry, this refresher course contains content from both Precalculus and College Algebra, as these two courses generally have a great deal of overlap. In a course for credit, certain topics may be included or omitted at the discretion of a course's instructor. For example, while most of these courses cover matrices and determinants (Chapter 9), some will cover Cramer's Rule while others will not. While many of these courses cover conic sections (Chapter 10), some will cover rotation of axes while others will not.

All of these topics are available for you to practice in this online refresher course. If you are unsure about whether you need to practice a specific topic in preparation for a course, it is recommended that you contact the instructor who will be teaching that course (if known), or the current math department chair, regarding specific curriculum inquiries.

Learning Aids
<input checked="" type="checkbox"/>  0. Prerequisites: Fundamental Concepts of Algebra
<input checked="" type="checkbox"/>  Section 0.1: Algebraic Expressions and Real Numbers
<input checked="" type="checkbox"/>  Section 0.2: Exponents and Scientific Notation
<input checked="" type="checkbox"/>  Section 0.3: Radicals and Rational Exponents
<input checked="" type="checkbox"/>  Section 0.4: Polynomials
<input checked="" type="checkbox"/>  Section 0.5: Factoring Polynomials
<input checked="" type="checkbox"/>  Section 0.6: Rational Expressions
<input checked="" type="checkbox"/>  1. Equations and Inequalities
<input checked="" type="checkbox"/>  Section 1.1: Graphs and Graphing Utilities
<input checked="" type="checkbox"/>  Section 1.2: Linear Equations and Rational Equations
<input checked="" type="checkbox"/>  Section 1.3: Models and Applications
<input checked="" type="checkbox"/>  Section 1.4: Complex Numbers
<input checked="" type="checkbox"/>  Section 1.5: Quadratic Equations
<input checked="" type="checkbox"/>  Section 1.6: Other Types of Equations
<input checked="" type="checkbox"/>  Section 1.7: Linear Inequalities and Absolute Value Inequalities
<input checked="" type="checkbox"/>  2. Functions and Graphs
<input checked="" type="checkbox"/>  Section 2.1: Basics of Functions and Their Graphs
<input checked="" type="checkbox"/>  Section 2.2: More on Functions and Their Graphs
<input checked="" type="checkbox"/>  Section 2.3: Linear Functions and Slope
<input checked="" type="checkbox"/>  Section 2.4: More on Slope
<input checked="" type="checkbox"/>  Section 2.5: Transformations of Functions
<input checked="" type="checkbox"/>  Section 2.6: Combinations of Functions; Composite Functions
<input checked="" type="checkbox"/>  Section 2.7: Inverse Functions
<input checked="" type="checkbox"/>  Section 2.8: Distance and Midpoint Formulas; Circles
<input checked="" type="checkbox"/>  3. Polynomial and Rational Functions

<input checked="" type="checkbox"/>	 Section 3.1: Quadratic Functions	 
<input checked="" type="checkbox"/>	 Section 3.2: Polynomial Functions and Their Graphs	 
<input checked="" type="checkbox"/>	 Section 3.3: Dividing Polynomials: Remainder and Factor Theorems	 
<input checked="" type="checkbox"/>	 Section 3.4: Zeros of Polynomial Functions	 
<input checked="" type="checkbox"/>	 Section 3.5: Rational Functions and Their Graphs	 
<input checked="" type="checkbox"/>	 Section 3.6: Polynomial and Rational Inequalities	 
<input checked="" type="checkbox"/>	 Section 3.7: Modeling Using Variation	 
<input checked="" type="checkbox"/>	4. Exponential and Logarithmic Functions	 
	 Section 4.1: Exponential Functions	 
	 Section 4.2: Logarithmic Functions	 
	 Section 4.3: Properties of Logarithms	 
	 Section 4.4: Exponential and Logarithmic Equations	 
	 Section 4.5: Exponential Growth and Decay; Modeling Data	 
<input checked="" type="checkbox"/>	5. Trigonometric Functions	 
	 Section 5.1: Angles and Radian Measure	 
	 Section 5.2: Right Triangle Trigonometry	 
	 Section 5.3: Trigonometric Functions of Any Angle	 
	 Section 5.4: Trigonometric Functions of Real Numbers; Periodic Functions	 
	 Section 5.5: Graphs of Sine and Cosine Functions	 
	 Section 5.6: Graphs of Other Trigonometric Functions	 
	 Section 5.7: Inverse Trigonometric Functions	 
	 Section 5.8: Applications of Trigonometric Functions	 
<input checked="" type="checkbox"/>	6. Analytic Trigonometry	 
	 Section 6.1: Verifying Trigonometric Identities	 
	 Section 6.2: Sum and Difference Formulas	 
	 Section 6.3: Double-Angle, Power-Reducing, and Half-Angle Formulas	 
	 Section 6.4: Product-to-Sum and Sum-to-Product Formulas	 
	 Section 6.5: Trigonometric Equations	 
<input checked="" type="checkbox"/>	7. Additional Topics in Trigonometry	 
	 Section 7.1: The Law of Sines	 
	 Section 7.2: The Law of Cosines	 
	 Section 7.3: Polar Coordinates	 
	 Section 7.4: Graphs of Polar Equations	 
	 Section 7.5: Complex Numbers in Polar Form; DeMoivre's Theorem	 
	 Section 7.6: Vectors	 
	 Section 7.7: The Dot Product	 

<input checked="" type="checkbox"/>		8. Systems of Equations and Inequalities		
	<input checked="" type="checkbox"/>		Section 8.1: Systems of Linear Equations in Two Variables	
	<input checked="" type="checkbox"/>		Section 8.2: Systems of Linear Equations in Three Variables	
	<input checked="" type="checkbox"/>		Section 8.3: Partial Fractions	
	<input checked="" type="checkbox"/>		Section 8.4: Systems of Nonlinear Equations in Two Variables	
	<input checked="" type="checkbox"/>		Section 8.5: Systems of Inequalities	
	<input checked="" type="checkbox"/>		Section 8.6: Linear Programming	
<input checked="" type="checkbox"/>		9. Matrices and Determinants		
	<input checked="" type="checkbox"/>		Section 9.1: Matrix Solutions to Linear Systems	
	<input checked="" type="checkbox"/>		Section 9.2: Inconsistent and Dependent Systems and Their Applications	
	<input checked="" type="checkbox"/>		Section 9.3: Matrix Operations and Their Applications	
	<input checked="" type="checkbox"/>		Section 9.4: Multiplicative Inverses of Matrices and Matrix Equations	
	<input checked="" type="checkbox"/>		Section 9.5: Determinants and Cramer's Rule	
<input checked="" type="checkbox"/>		10. Conic Sections and Analytic Geometry		
	<input checked="" type="checkbox"/>		Section 10.1: The Ellipse	
	<input checked="" type="checkbox"/>		Section 10.2: The Hyperbola	
	<input checked="" type="checkbox"/>		Section 10.3: The Parabola	
	<input checked="" type="checkbox"/>		Section 10.4: Rotation of Axes	
	<input checked="" type="checkbox"/>		Section 10.5: Parametric Equations	
	<input checked="" type="checkbox"/>		Section 10.6: Conic Sections in Polar Coordinates
