Study Guide

Blood

Order: 500 mL whole blood - run over 3 hrs.

1. Calculate the volume/hr.

2. Calculate the volume/min.

Order: 350 mL packed red blood cells - run over 4 hrs.

3. Calculate the volume/hr

4. Calculate the volume/min.

Order: 275 mL washed red blood cells - run over 3 hrs.

5. Calculate the volume/hr.

6. Calculate the volume/min.

Order: 380 mL whole blood - run over 4 hrs.

7. Calculate the volume/hr.

8. Calculate the volume/min.

Order: 225 mL fresh frozen blood plasma - run over 4 hrs.

9. Calculate the volume/hr.

10. Calculate the volume/min.
