

Child, Family and Consumer Sciences
Child Development
Instructional Staff Meeting

3/4/2009

I. Welcome

II. Assessment Tools

The instructors talked and decided it was going to take too long going courses by course

they wanted to divide the courses up and each person would do some and come back with assessment tools. They all agreed. Becky took all the administration courses, the infant courses, field experience, and the small professional growth courses. Fonda took observation and assessment, intro to curriculum, and the curriculum courses except science and math and Scott took that one. Fonda also took Child, family and community. Scott took Child Development, Science and Math, CDEV100 to complete. They agreed to meet in one month.
