Dear Mr. Gould:

Complete evaluation results of the Automobile technician-training program at Imperial Valley College have been received and reviewed.

Congratulations! I am pleased to inform you that all eight areas meet the strict industry standards required for NATEF *Master* Accreditation of your program. This is the highest level of achievement recognized by the National Automotive Technician Education Foundation (NATEF).

Although many educational institutions strive for it, only a small percentage achieves this accreditation. Both the educational and automotive communities should be proud of your commitment to quality Automobile training programs.

To acknowledge your accomplishment for NATEF *Master* Accreditation, we are creating a plaque for you that will recognize your school and the specialty areas your program has obtained accreditation in. You should receive this plaque within 6-8 weeks.

Again, congratulations on your achievement.

Sincerely,

Patricia Serratore  
President, NATEF
