Subject: IVC Campus Safety Officer Program

Good morning IVC!

I am proud to announce that our "in-house" campus safety officer program officially started today. As many of you may recall during the orientation, I had stated that we would be reducing the DSS Security contract to graveyard shifts only. Months ago, through an internal audit; I found that we could internalize our campus security and staff many of the positions with campus safety officers that are/have already gone through the IVC P.O.S.T. (Peace Officer Standards and Training) Reserve Officer Program.

This program will allow a select group of current IVC P.O.S.T. Academy Cadets, A.J. students and alumni to gain valuable public safety experience as they progress through their careers in law enforcement. The campus safety officers will patrol all of the IVC campuses. This includes: Main Campus, the Calexico Extended Campus, Calexico HS Campus, Brawley HS Campus, and the El Centro HS Campus.

With the new campus safety officer program, the Campus Safety & Parking Control Department is now able to provide additional, highly trained campus safety officers per shift. We will now have campus safety coverage 24 hours a day, 7 days a week; instead of the limited coverage that we previously had with contract security for the nearly the same cost.

Should you have any questions or concerns please feel free to contact me.

Thank you.

Tim T. Nakamura, M.A.
Director of Campus Safety and Security
