c. Provide an explanation on how the district intends to fund the salary and benefit increases, and also identify the revenue source/object code.

These salary reductions came in as a result of salary freezes to Administrators, Classified Managers and Classified Confidential staff.

VI. Did the district have significant events for the quarter (include incurrence of long-term debt, settlement of audit findings or legal suits, significant differences in budgeted revenues or expenditures, borrowing of funds (TRANS), issuance of COPs, etc.)? **YES**

If yes, list events and their financial ramifications. (Enter explanation below, include additional pages if needed.)

The district was deducted over \$1 million cash out of the May 2012 apportionment payment due to over projected RDA payments. The district was able to temporarily absorb this reduction due to the \$8 million TRAN we had issued the previous quarter. It is expected that the funds will be repaid in July 2012.

VII. Does the district have significant fiscal problems that must be addressed? **This year? YES**
Next year? YES

If yes, what are the problems and what actions will be taken? (Enter explanation below, include additional pages if needed.)

Increased cash deferrals, reduction in work-load measures, state apportionment deficit, reduction in categorical program funding, FTES decline and 0% COLA are major contributing factors to our current and projected financial position. A 2.3% additional reduction was taken in anticipation of 11-12 mid-year cuts. The district had to reduce its 11-12 budget an additional \$1 million dollars due to a statewide shortfall in enrollment fee and property tax revenues which was done primarily through operational adjustments and not using reserves. The district and the various represented and unrepresented groups reached a one year (11-12) agreement on compensation packages and other cost containment measures to limit the impact on district's reserves for fiscal year 2011-12. Due to cost containment measures (i.e. salary freezes, furlough days, early purchasing cut off, etc.) instituted during this year, the district unrestricted general fund balance ended up better than originally budgeted. The district had a decline of 440 FTES for the year placing us in restoration mode for the next three years. This \$2 million loss will have a significant impact in the next few years if we are not able to restore these FTES. For 2012-13, the district has settled labor agreements with Administrators, Classified Managers, Classified Confidential Staff and Full time Faculty and will continue to work with CSEA and Part time Faculty until an agreement is reached. Several Administrator, Classified Manger and Classified staff positions have been eliminated for the 2012-13 fiscal year via retirements, restructuring of departments and layoffs. The 2012-13 budget will contain a plan to maintain reserves above 5%. The district continues with the pay-as-you-go method of funding GASB 45 but intends to fully fund its GASB 45 liability when funds become available.
