

Campus Hour and Time Block Discussion

July 16, 2014

Board Room

Current Time Blocks

- * Campus Hour two days a week

Tuesday and Thursday, from 11:50 to 1:15pm

- * The following slide depicts the present time block calendar *with section count, average fill rate, and student headcount* in each block to reflect performance/demand.

Campus Hour Impact Analysis

Campus Hour Research

Impact Analysis on the 1150-1315 block (which was replaced with campus hour T/R), and any coresponding impact on the following two afternoon blocks.

The drop in 201310 was the start of campus hour

Narrative: The student population for the 1150-1315 block dropped from an average of 1712.5 students to 798 students due to the introduction of campus hour. However, there was a slight coresponding increase in the 1330-1455 timeblock from an average of 1350 students to 1580.5 students; as well as a slight increase in the 1505-1630 timeblock from an average of 710.5 students 815.5 students.

Results

These two afternoon timeblocks combined reflect an average increase of 335.5 students, which does not make up for the loss of 914.5 students at the 1150-1315 timeblock.

This suggests a loss of ~579 students as a result of introducing the campus hour.

Proposed Solution: New Time Block Calendar

* New time block calendar would allow for multiple benefits including:

1. Additional Morning Blocks which are the highest in performance/demand.
2. Removal of the low-performing 7AM block.
3. Two Additional Campus Hour Blocks: **Monday thru Thursday from 12:50pm to 1:50pm**
3. All contact hour values (1-5) will be able to participate
4. Added flexibility to evening time blocks to benefit student learning and faculty availability.

The following slide reflects the proposed time block calendar.
