

Educational Master Plan for 2012-2013

MISSION, PURPOSE, VALUES, GOALS AND OBJECTIVES

Mission

The mission of IVC is to foster excellence in education that challenges students of every background to develop their intellect, character, and abilities; to assist students in achieving their educational and career goals; and to be responsive to the greater community.

The mission statement was developed during the 2001-2002 academic year by representatives from all IVC employee groups and by representatives from local businesses, industries, government, and the community at large. It was adopted by the IVC Board of Trustees on May 22, 2002, is reviewed biannually, and serves to define IVC, its purpose within the postsecondary education arena, its place in workforce and economic development, and its contribution to the structure and makeup of our community. The college community has embraced the mission, which has become a basis for identifying and defining IVC's commitment to student achievement. In an effort to track and measure our commitment to student achievement, IVC developed institutional student learning outcomes (ISLOs), which were adopted by the IVC Board of Trustees on May 16, 2006. These ISLO's—communication skills, critical thinking skills, personal responsibility, information literacy, and global awareness—arose from IVC's mission statement and serve as a foundation for its commitment to education.

Purpose

The purpose of IVC is to serve as a provider of postsecondary academic and career technical education at the lower division level. IVC provides for associate degrees and certificates, transfer education, basic skills and English proficiency, economic and workforce development, non-credit education, and lifelong learning opportunities.

In fulfilling its purpose, IVC affords students the opportunity for upward social and economic mobility. As one of more than one hundred California community colleges, IVC has as its purpose the same overarching purpose as the California community college system: To advance California's

THE PROGRAM REVIEW PLANNING PROCESS

2011-2012 Planning Process/Development of 2012-2013 Educational Master Plan

2011-2012 was the start to IVC's second three-year planning cycle. The program review planning process for 2011-2012 is described in the text and timeline of activities below and is the result of continuous improvement driven by an annual evaluation of the process, its timeline, the format or media used, and the end user's perspective on the ease and clarity of the process and formats. The web-based template for the annual program review (APR) that was introduced in fall 2009 was updated in early fall 2010 to include a feature that allows programs to request resources that are above and beyond, or in addition to, a program's base operating budget. The goal of the web-based template was to improve the planning process to more efficiently manage the work of summarizing and prioritizing requests for the staffing, technology, marketing, professional development, student learning outcomes, and facilities resource plans. The web-based form assists in linking requests to account codes, while automatically providing current year budget and actual expenditures for the previous year using IVC's central IT system, Banner, as the source. Justification for any line item can be added in a brief statement or in an attached longer format.

In addition, the web-based repository provides a link, by line item, to a specific resource plan. The link to resource plans enables individual resource plan committees to pull plan specific reports from the APR; for example, all line items linked to the marketing resource plan can compose a single report. The APR and CPR for 2012-2013 will delineate the contractual and fixed costs from the desired line items
