
Educational Master Plan for 2012-2013

4.3	Ensure that the Board of Trustees is informed and involved in the accreditation process.
4.4	Ensure that processes for the evaluation of the Board of Trustees and the Superintendent/President are clearly defined, implemented, and publicized.
4.5	Establish a governance structure, processes, and practices that guarantee that the governing board, administration, faculty, staff, and students will be involved in the decision making process.

THE PROGRAM REVIEW PLANNING PROCESS

2011-2012 Planning Process/Development of 2012-2013 Educational Master Plan

2011-2012 was the start to IVC's second three-year planning cycle. The program review planning process for 2011-2012 is described in the text and timeline of activities below and is the result of continuous improvement driven by an annual evaluation of the process, its timeline, the format or media used, and the end user's perspective on the ease and clarity of the process and formats. The web-based template for the annual program review (APR) that was introduced in fall 2009 was updated in early fall 2010 to include a feature that allows programs to request resources that are above and beyond, or in addition to, a program's base operating budget. The goal of the web-based template was to improve the planning process to more efficiently manage the work of summarizing and prioritizing requests for the staffing, technology, marketing, professional development, student learning outcomes, and facilities resource plans. The web-based form assists in linking requests to account codes, while automatically providing current year budget and actual expenditures for the previous year using IVC's central IT system, Banner, as the source. Justification for any line item can be added in a brief statement or in an attached longer format.

In addition, the web-based repository provides a link, by line item, to a specific resource plan. The link to resource plans enables individual resource plan committees to pull plan specific reports from the APR; for example, all line items linked to the marketing resource plan can compose a single report. The APR and CPR for 2012-2013 will delineate the contractual and fixed costs from the desired line items

Educational Master Plan for 2012-2013

and will provide additional reporting options to facilitate a more thorough review by the program/department, administration, and resource plan committees.

All departments and programs use the comprehensive program review (CPR) template that was introduced in fall 2009. The form includes three distinct sections – past, present and future – as well as a section for standardized data in a standardized format with an option to include additional supporting or illuminating data. One-third of all programs/departments complete a CPR annually. Therefore, all campus community programs/departments are reviewed every three years.

The annual program reviews and comprehensive program reviews completed in 2011-2012 are found in Appendix A and Appendix B, respectively.

Educational Master Plan for 2012-2013

2012-2013 Planning Process/Development of 2013-2014 Educational Master Plan

The EMPC will meet at the beginning of the fall 2012 semester to go over the planning process for 2012-2013. This will include review and/or revision of EMP goals and objectives for 2013-2014.

Resource Committees and Chairs will be clearly defined and deadlines given for completion of Program Reviews, budget development, updated EMP, shared governance review, and Board approval. Training will be conducted on use of the CPR and APR tools, data entry for budget requests, and separating contractual and fixed costs from desired requests. Training will be provided to the Resource Committees on preparation and formatting of their reports, and to area administrators and Vice Presidents on reviewing and evaluating APRs and CPRs.

In 2012-2013, using the APR tool, programs/departments will develop initial budget requests, delineating the contractual and fixed costs from the desired requests, which are submitted to their area vice president on or before December 1. The area vice presidents complete the first review and request further information or adjustments, if needed. A summation of their review is made available by the last working day of January. All resource plan committees begin their review of the vice presidents' summations, the APR resource plan reports, and the CPRs for content pertinent to their specific resource plan. By the first of March, each resource plan committee submits its updated/revised resource plan which includes the committee's prioritization of requests and goals, and recommendations based on predetermined criteria, all of which tie to the EMP goals and objectives. In addition, the resource plan committees submit any recommendations for improvements to the planning process.

The EMPC forwards the 2013-2014 updated Educational Master Plan (along with the resource plans, the prioritized requests, and the recommendations) to the Budget and Fiscal Planning Committee and the Academic Senate and College Council by the March 10, or early enough to ensure the item is on the agenda for a March meeting. These shared governance committees will review and recommend

action as appropriate. By April 15, this portion of the planning cycle will be finalized. The CBO will then direct the date for data entry into the Banner budget module, creating the Tentative Draft Budget, or Gen 1. Once the tentative draft budget data entry is complete and the tentative budget is released for review by CBO, the evaluative cycle of the planning process begins.

The 2012-2013 program review planning process is depicted immediately below and in the pictorial timeline (CHART A), planning process (CHART B), and planning stream (CHART C) that follow. The shared governance structure for 2012-2013 is also reflected below (CHART D).
