	Measurable Outcome Summary: The Grounds department has done an admirable job with the amount of staff in this department. However, the campus keeps growing and they are really starting to get stretched very thin. With the addition of more square footage; serious thought needs to be put into hiring an additional Grounds Maintenance Worker.

	Measurable Outcome Summary: The maintenance staff has done a good job in this area. Due to construction, they have taken on an increased workload this year. Our climate is very harsh which adds to the difficulty of their jobs, but they have done a very good job of adapting to all of the new title 24 regulations, and have found ways to make the equipment work efficiently in this climate.
