Use of Results

Date	Description
11/18/2019	This objective links to 2019-20 SAO #3: Curriculum processes will be facilitated to streamline the creation and updating of high quality course and program offerings. The District recently purchased catalog development software and will work towards automating development of the catalog in 2019-20. The current process for development of the catalog is tedious and cumbersome. The CurrIQunet catalog module will make the process much easier and more streamlined and will produce a catalog quicker. The catalog module will improve the accuracy of information by automating the integration of courses belonging to programs. The system will also provide an automated approval process to ensure inclusion of all involved in the process of updating catalog text language
