Distance Education Delivery Method	<input type="checkbox"/> Other (explain)
Distance Education Contacts	<p><b>Justification</b></p> <p>Many of the students who would benefit from this course are parents with small children, students and law enforcement professionals who work, and other students whose schedules would otherwise prevent them from taking a regular AJ 100 course. These persons would benefit by being able to take an AJ 100 course that allows them great flexibility in scheduling coursework around employment or family obligations. In addition, this course would benefit students who might otherwise be too insecure or shy to participate fully in regular class discussions.</p>
