The Imperial Community College District Board of Trustees believes that a major Trustee role is to set policy for the District. In setting policy, the Board wants to create and work within a participatory environment with respect for students and all employee groups.

For developing policies regarding the academic and professional matters numbered a, b, and c, the Board will consult collegially with the faculty by relying primarily on the advice and judgment of the Academic Senate (per previous agreement with the Senate).*

For developing policy regarding the other academic and professional matters (d through j), the Board will consult with the faculty through the mutual agreement process previously agreed upon.

At Imperial Community College District, the mutual agreement process is the use of the shared governance structure consisting of councils, committees, and the Board.

Further, representatives of staff and student groups are encouraged to work within the established processes to address the issues of the District.

The Board of Trustees values consensus building; however, it realizes its legal responsibility to make final decisions regarding policy.
