## **III. Discussion Items**

### **1. Class Sizes**

A procedure was designed by members of the committee in 2014 to assist in establishing and modifying class sizes. This is a robust form that can be modified to fit the increase or reduction of class sizes. Discussions with Pam Deegan, who was retained to review enrollment management processes and provide recommendations, has brought attention to class sizes. Members discussed other options such as being more strategic about the time courses are offered and distribution of FTES targets across departments/divisions. Schedule development, taking into consideration the student's educational experience was discussed including the impact of college hour. We should not rely primarily on class size to fix budget issues. Considerations: night college, weekend college. The student representative also commented that the bus schedule was not convenient for students and should be brought to the attention of those that can provide an analysis of the relationship between the bus schedule and course schedule.

## **IV. Information Items**

### **1. Short Course Titles**

The list of short course titles was presented and will be sent out to committee members to review and update as needed. Short titles are used in marketing efforts.

## **V. Other Items**

Members were reminded of the importance of program pathways. They will be used to develop templates that counselors can use when advising students.

## **VI. Next Regular Meeting: March 16, 2017, 12:50pm in the Board Room**

## **VII. The meeting adjourned at 1:50 p.m.**

In accordance with the Ralph M. Brown Act and SB 751, minutes of the IVC Curriculum Committee record the votes of all committee members as follows: (1) Members recorded as absent are presumed not to have voted; (2) the names of members voting in the minority or abstaining are recorded; (3) all other members are presumed to have voted in the majority.
