Subject: Next Outreach Date

Good afternoon Norma & Lorena,

I'd like to notify you that we would like to schedule our next outreach class/visit for the young adults for **Friday, November 02, 2012 @ 10:00am.**

It was a pleasure seeing the group that was present last time and I would hope that it continues to grow.

I'd like to ask if we can get

your assistance in notifying all the young adult students who are blind or visually impaired of this date. We discussed offering our

outreach services once a month to begin with. The group that was present was enough to get us started on a monthly basis beginning Friday, November 02, 2012 @ 10:00am.

We can assist in many areas while we are present. We noticed Orientation & Mobility was a need as well as many of our Independent Living

Skills classes. Therefore, we would like to keep the communication and collaboration active so that we don't lose any students in need. At the

same time, if you have any older adults who may be interested they can participate as well and we can then inform them of our Imperial Blind

Center outreach classes. We are flexible to the point where we can accommodate such a group. Please confirm if this date would be okay to

reserve a room. We felt it was best to begin with a money management class (identifying money, folding techniques, use of assistive technology, etc.)

It is our pleasure in extending our services to you.

Please feel free to let me know if you have any questions or concerns.

Kindly,

Karla Corona
Youth/Career Services Consultant
