The ASSESSMENT CYCLE: Closing the Assessment Loop

You may elaborate as much as you need to in order to complete this form. Instructions are on the following page.

1. Please list the course number. In case page 1 is separated from page 2, this will help with organization. Please include the date that assessment cycle was fully completed.
2. To encourage collaboration and the sharing of ideas, each form must be completed by at least two people. If you are the only one teaching the course, you are encourage to share your data results and improvement methods with at least one other staff or faculty member. Please list the names of all faculty, staff, and students who were involved in summarizing or evaluating the data. These names may be the same or different than those on the original SLO ID form.
3. Your original data results, or your raw data, should be kept within your department for three years. At this time you do not need to submit the raw data, but please keep it for future quality control measures. Please summarize the data that you collected. You should include how well students scored on the assessment. You might also include: how many instructors submitted data(full-time, part-time); the type of data that was submitted (rubric scores, practical test results, etc); and, if appropriate, if a cross-section of classes (day, evening, online) were assessed. If a rubric was used, you might discuss the number of students who scored 1, 2, 3, or 4, for example, on the rubric.
4. This is an opportunity to have a rich discussion with others involved in education. Please describe any changes that can be made based on the data. Changes might be made to class activities, assignment instructions, topics taught in class, or the course outline of record, etc. You might include when the changes will be implemented and, if a comparison is to be made, when the next round of data will be collected (e.g. Fall 2009).

Then, answer “Yes” or “No” to the curriculum question – no explanations required but please answer the question.

5. This may provide an opportunity to discuss what went well and what could be improved. If the SLO needs to be tweaked or more outcomes/assessments need to be included you might want to do that now while the information is fresh. This may allow faculty to modify SLO(s) for next year and be prepared to include them on next year’s syllabus.
6. Please share your thoughts, feelings, and ideas on IVC’s SLO process thus far.

When completed, please forward to SLO Coordinator and the designee in your department. Thanks.
